Requirement	Yes	No
Bedrooms		
Windows and security screens can be easily opened from inside, without keys or tools, for emergency exit		
(Are the windows large enough for you to get through easily?)		
Upper level escape windows have emergency ladders or safe access to ground		
Lamps are clear of any flammable materials, like curtains, sheets, towels, clothing, books, etc.		
All electrical cords are in good condition – no cracks, frays or splices		
Bedroom doors are closed at night to protect against toxic smoke, and to provide fire barrier		
Candles are extinguished when you leave the room, or LED candles are used		
Second and third level bedrooms have escape ladders		
A phone is near your bed		
Nobody, absolutely nobody, smokes in bed		
Basement/ Crawlspace/Utility Area		
Furnace and hot water tank are clear of any flammable materials		
No flammable material is stored in furnace/water heater/utility room		
Electrical panel is clear of obstructions		
Lint trap in dryer is cleaned after every use, and vent ducting cleaned regularly		
Outside / General		
Smoking areas identified by signs and adequate ashtrays provided		
Cigarettes or other smoking materials are never extinguished in planters, on grass, in peat moss or mulch		<u> </u>
Burning regulations for outdoor fires are understood and followed – Watch for FIRE BANS!		
Propane, gasoline and other flammable liquids on property are correctly stored, closed when not in use		
Firewood storage is clear of residential buildings		
		

All "yes" answers? Well done; Call us to volunteer! Any "no" answers? Consider making some changes - let us know if we can help!

Pender Island Fire Rescue provides emergency response services to all residents and visitors on North and South Pender Island, 24 hours per day, every day of the year. This includes:

Fire suppression Medical first response Motor vehicle extrication Hazardous material management Technical rope rescue Search and rescue

Over one hundred volunteers from our community, including 44 on-call responders, work together to provide these services. All responders are trained to National Fire Protection Association (NFPA) standards, with more than 6000 hours volunteered annually to develop and practise the skills to keep you safe.

When you call 911, volunteers respond to the nearest firehall, load into the appropriate rescue apparatus, and rush to your location. You can rest assured that *"When you call – someone will show up who knows what to do."*

For more information, check our website <u>www.penderfire.org</u> or give us a call at 250-629-3321.

*This checklist is provided as a guide only. For complete details on conformance to safety requirements, please refer to the British Columbia Fire Code, or contact Pender Island Fire Rescue at 250-629-3321.
